

# Are pandemic safety measures making it **HARDER FOR YOU TO** **COMMUNICATE?**

Many of the CDC recommendations are creating communication problems for people living with hearing loss.

LIMITED VISUAL CUES

Virtual communication and masks limit lip reading and body language.

MUFFLED SPEECH

Face masks make speech more difficult to understand.

HEARING AT A DISTANCE

The further away you stand from someone, the more difficult it is to hear them.

**We understand your challenges  
and have solutions to help you.**
